|                                                       |                         | Paddlers to be careful getting in and out and request assistance if required.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |   |
| <b>MUDDY BANKS</b>                                    | Paddlers and Spectators | The banks can be very slippery and the mud much deeper than you think, ensure you get in and out on firm ground/banks. All paddlers are to wear appropriate footwear.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | L |
| <b>RIVER CONDITIONS</b>                               | Paddlers                | River Trent is a natural river lined with trees and other hazards. At low water these present little risk. However, the river can rise rapidly in wet weather and as the river rises the risk of becoming entangled and entrapped in trees and other hazards increases, quickly. Any specific hazards will be highlighted during the briefing.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | L |
| <b>CONDITIONS E.G. WIND, WEATHER ETC.,</b>            | Paddlers and Spectators | Review on day of race. Option includes course changes (shorter or circular nearer to the start) or cancellation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | L |
| <b>BOATS MOORED AND CHAINS/ROPES</b>                  | Paddlers                | There are a few places where boats are moored with chains, ropes etc. All paddlers must not cut over these as you can get trapped or pulled under.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | L |
| <b>RIVER TRAFFIC</b>                                  | Paddlers                | There may be some boat traffic on the river especially other canoeists, rowers and motor boats. Treat other craft with respect.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | L |
| <b>OVER HANGING TREES BRANCHES ETC</b>                | Paddlers and Spectators | In low water the risk is low and most trees and obstacles are above the water, as the river rises the risk of becoming entangled and entrapped in trees and other hazards increases, quickly. Any specific hazards will be highlighted during the briefing or detailed in the briefing notes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | L |
| <b>NAVIGATION &amp; SAFETY COVER</b>                  | Paddlers                | A pre-race briefing will take place to describe the course. Safety cover will be provided in two key locations (Averham Weir and Crankly Point). A third safety boater will sweep the course, behind the last competitor.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | L |
| <b>CAPSIZE</b>                                        |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |   |
| <b>CAPSIZE</b>                                        | Paddlers                | <p>IN ALL CASES THE PADDLER TAKES PRIORITY OVER SAVING BOAT AND/OR EQUIPMENT</p> <p>WWR code of conduct requires all paddlers to offer support to other paddlers when requested or if they see someone in potential difficulty with penalty of disqualification for life from competitive canoeing unless at risk/danger themselves.</p> <p>The paddler should get to the bank as quickly as possible with their canoe and paddle if they can. If they need help they MUST stop the next paddlers by calling for help from them. The water current may be strong and some paddlers may have difficulty in swimming against this. The finished paddlers must be alert to the paddlers on the race course and go to help immediately.</p> <p>NB: If a boat is lost downstream then please let the race organisation know so emergency service can be notified to prevent any unnecessary searches being started.</p> | L |
| <b>BOAT SPECIFIC</b>                                  |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |   |
| <b>SAFETY CLOTHING, EQUIPMENT and CANOE FLOTATION</b> |                         | It is the paddlers responsibility to ensure their boat has appropriate buoyancy and safety clothing/equipment meets National Governing Body guidelines. All paddlers must wear a buoyancy aid and shoes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | L |
| <b>ILL HEALTH INJURY</b>                              |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |   |
| <b>ILL HEALTH and or INJURY</b>                       | Paddlers                | If you can pull to the side or a safe bank area, or an area you can beach boat or hold on safely to something. If possible you can get out and rest on the bank. Call for help in any situation and report                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | L |

| <b>WEILS DISEASE</b>           | Paddlers                | <b>WEIL'S DISEASE</b><br>Weil's Disease is a RARE but very serious illness which is caused by bacteria carried in the urine of rats (and some other animals). It can be contracted anywhere but especially around waterways. The descending scale of risk is: Stagnant water, canals and slow moving rivers (particularly after flash floods), swifter streams.<br>Precautions: <ul style="list-style-type: none"> <li>• Avoid capsize drill or rolling in stagnant or slow moving water</li> <li>• Wash or shower after canoeing.</li> <li>• Cover minor scratches on exposed parts of the body with water-proof plaster</li> <li>• Use foot-wear to avoid cutting feet</li> </ul> Should you become ill after canoeing (2-19 days) with a flu-like illness (temperature, aching limbs & joints) call your doctor and tell them you are a canoeist and may have come into contact with the Leptospirosis bacteria – contact Paddle UK for more information if required. | L |
